

Agriculture is the most important sector in today's life. Most plants are affected by a wide variety of bacterial and fungal diseases. Diseases on plants placed a major constraint on the production and a major threat to food security. Hence early and accurate identification of plant diseases is essential to ensure high quantity and best quality. In recent years, the number of diseases on plants and the degree of harm caused has increased due to the variation in pathogen varieties, changes in cultivation methods, and inadequate plant protection techniques.

- 30 minutes to prepare
- 1 hour to collaborate
- 2-5 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going:

 [Read this](#)

- Team gathering:** Define who should participate in the leader-led and/or leader-follower activities or projects of each.
- Set the goal:** Think about the problem you'll be focusing on solving in the teambuilding session.
- Learn how to use the facilitation tools:** Use the facilitation handouts to get a happy and productive session.

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

PROBLEM

- 1) In agricultural aspects, if the plants are affected by leaf diseases, then it reduces the growth and productivity. Generally, the plant diseases are caused by the abnormal physiological functioning of plants.
- 2) People who Grow Crops and facing issues of Plant Diseases.
- 3) The Traditional methods of Fertilizer prediction and Disease analysis are Expensive and takes a lot of time.

- Stay in focus.
- Stress single well-being.
- Twice judgment.
- Listen for others.
- Use the vehicle.
- If possible, let others.

References

Write down any ideas that come to mind that address your problem statement.

18 minutes

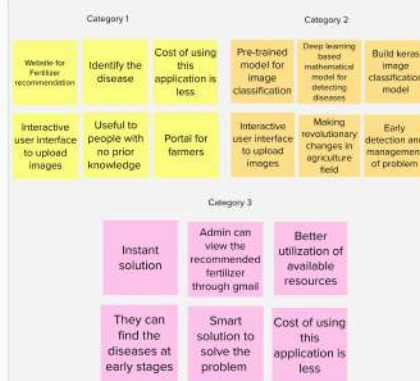

TIP
This worksheet is already coded
and the two parent classes are
located in the `ch07` directory.

Group items

Take turns sharing your ideas while clustering words or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

Priorities

Your team should all be on the same page about what's important moving forward. Place your ideas on the grid to determine which ideas are important and which are feasible.

After you collaborate

You can export the mural as an image or pdf to share with members of your community who might find it helpful.

- Quick add-ons**
-  **Share the mural**
Share a view link to the mural with collaborators to view.

- Report the report**
Report a copy of this course as a PDF or PPT to obtain 10 credits. Include in letters, or name in paid office.

Keep moving forward

- Define the components of a new line of strategy
- [Open the template →](#)

- Customer experience journey map**
Unscripted customer needs, frustrations, pain
attributed to an experience

- Strengths, weaknesses, opportunities & threats**
Identify strengths, weaknesses, opportunities, and threats (SWOT) or develop a plan.
